

Over the last year children from Offwell School have been fortunate to make visits to 3 European countries as part of the European Union funded Erasmus+

link. Groups have gone to Spain, Italy and Latvia. Our link

schools all meet up at the same time visiting each country; children spend a week as a 'European Class' in each country, learning about the local history, geography and culture. They make day trips to local sites of interest, eat together in restaurants in the evenings and have plenty of opportunities to learn greetings and other simple phrases in each language.

Headteacher Anne Billington said, "This has been a fantastic opportunity for Offwell School enabling us to continue to broaden

the minds of our children and provide stimulating and inspiring experiences, creating special

memories they'll treasure."
